Hi,

Yes, I am involved indirectly. You must read my new book Life Signs.

Love,

Uri

F.Y.I.: I write numerous columns for newspapers and magazines. You will find most of these in the press reports section on my web site at www.uri-geller.com While you are there you can read - free - some of my books, and others, which have helped many people worldwide. The latest publications can be ordered online. I think you will especially enjoy my novels Ella and Dead Cold, and my non-fiction illustrated and comprehensive book Mind Medicine, foreworded by Andrew Weil M.D.

Also enjoyable is the biography by Jonathan Margolis, Time magazine European correspondent, called Uri Geller : Magician or Mystic? It is a fascinating, revealing read. The Parascience Pack, is a most unusual 3D pop-up book which includes a genuine rock crystal and solid brass dowsing rods. The book is an interactive exploration of your psychic powers.

I also recommend The Psychic and the Rabbi, which I co-authored with my friend, Rabbi Shmuley Boteach. In this book I debate and discuss the sanctity of life, religion and spirituality, celebrity and celebrities and parenting and obligation. To test the breadth of appeal of our promised book, I decided to seek an endorsement from the Vatican. With a brief note explaining what Shmuley and I hoped to achieve in dissolving religious boundaries and awakening people to their own spirituality, I bundled up a few of our letters and sent them to the Pope. My admiration for Pope John Paul II is profound, and I appreciate the tireless efforts he has made to join Christian and Jewish hands in friendship. I did not expect a kind and loving reply, in the hand of his Vatican Assessor, Monsignor Pedro Lopez Quintana, which concluded: 'His Holiness invokes upon you and upon Rabbi Shmuley Boteach abundant divine blessings.' The Pope's blessing seemed to crystallize the central point of all my words with Shmuley - God loves not the divisions which human beings place between each other, but the people themselves.

Unorthodox Encounters reveals the common humanity - the foibles, hopes and dreams - that binds us all, rich and poor alike, in an all too stratified world.

Finally, Uri Geller's Life Signs published by Readers Digest is about transforming your life through understanding your personality type, it's an amazing book, fantastically produced in colour.

Most of the books on my site have a direct link to amazon.co.uk and amazon.com and can be ordered now.
